

RX 50R

The new RX 50R from MH is based on a complete renovation of the previous model, thanks to a great amount of investment in the design and engineering. It is equipped with the best parts and enviable aesthetics, which give it great power and reliability.

This 49 cc motor includes the best features on the market: Minarelli AM6 engine, a 41 mm Paioli inverted fork, digital control system with revolution counter, high quality fairings and other plastics and a MH Racing double beam steel chassis. Its radical design, with sporty paintwork, has been carefully developed in order to complete this new model from MH.

Motorhispania continues to follow the same method as previous years, aimed at guaranteeing a maximum quality bike, which will be a leader in its sector.
